

# FREEZE 2000

Art.no 1195-01

Separett Freeze is a freezer toilet suitable for whoever wants a toilet solution that doesn't require any fixed installation. It only needs a power point in order to work and can easily be moved around as required. Neither run-off nor ventilation is required.

Freeze functions like a freezer. After use the waste is frozen and becomes odourless. You don't require either a run-off or ventilation.

The inner container, which is preferably covered with our compostable waste bag, emptied into a latrine compost, e.g. a Roslags compost when it is full.

Capacity:  
Unlimited capacity for continuous emptying the latrine container.

## EASY TO USE

### WASTE CONTAINER WITH HANDLE

The latrine vessel is fitted with a handle for easy emptying and can be easily replaced as required.  
Art.no: 1212-011

### EVERYTHING FREEZES

One hour after you have connected Freeze up to the electric power network the toilet is ready for use. The inner vessel then maintains a temperature of minus 18 degrees and the waste freezes quickly.

The temperature can be adjusted by an adjustment on the rear of the toilet.

## EASY TO CLEAN

Freeze is very easy to keep clean. Clean with ordinary detergent to keep it clean and fresh.

## INCLUDED WITH THE FREEZE 2000

- 1 pcs waste container
- 10 pcs compostable waste bags
- 1 pcs Sally childseat

## SUPPLEMENT WITH

- 30010 Roslags compost\*

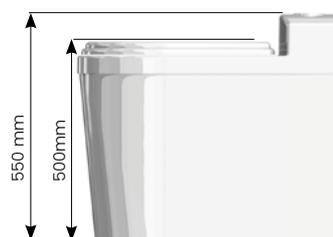

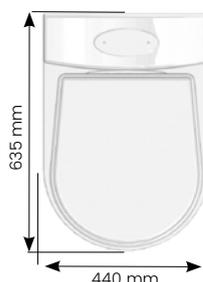

\* Roslags composten is a latrine compost suitable for combined latrine and household waste for 5 pers.

## INSTALLATION

Separett Freeze does not require a fixed installation. Only plug it into the electrical outlet (230 V). Neither sewage nor ventilation required.
