

WooWoo GT LUX

Starter Kit Dimensions

The **WooWoo GT LUX** is a batch composting toilet with porcelain pedestal. The starter kit is supplied with two composting containers, one set of wheels, the pedestal and a vent fan.

Batch composting container:

WooWoo GT LUX 120

Max capacity 120 litres
Height: 700mm
Width: 600mm
Depth: 600mm

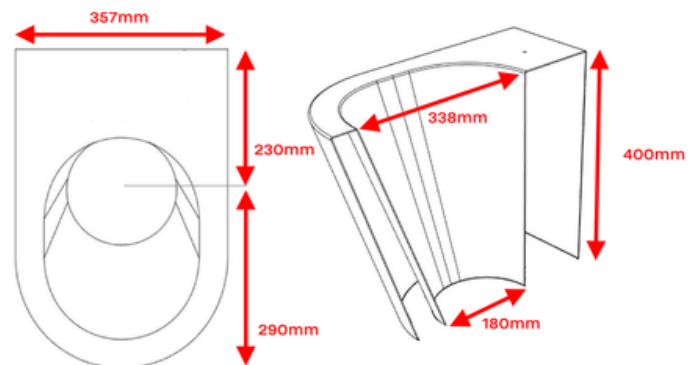

Vent pipe: \varnothing 110mm Drain pipe: \varnothing 32mm

WooWoo GT LUX 330

Max capacity 330 litres
Height: 920mm
Width: 660mm
Depth: 820mm

Vent pipe: \varnothing 110mm Drain pipe: \varnothing 32mm

Porcelain pedestal:

Waste shaft: \varnothing 200mm
1000mm length supplied
Size of hole through floor: \varnothing 210mm

Minimum clearances for installation:

Minimum height from ground to underside of floor above to enable access and maintenance. Additional clearance will make maintenance easier.

For installations within a dwelling, or where the vent pipe run is not straight, we always recommend the electric ventilation fan. For outhouse installations, where the vent pipe is vertical, the wind-powered fan can be used.
